## Adopt-a-School Program

The Scouting America, Adopt-A-School program is an exciting undertaking to connect scout units with schools in their communities.

Participating Scouts then partner with school administrators and offer the volunteer services that most effectively meet their school's needs.

Adopt-A-School projects proactively build relationships between your Scouting program and local schools, while Scouts learn the importance of giving back and taking pride in their local school.

By Adopting-A-School, units will perform a minimum of four projects throughout the school year to enhance the school grounds, or the program of the school community.

### Project Ideas:

Grounds Beautification

Clean-up Days

Teacher appreciation events

Flag ceremonies at School events

Book Drive coordination

Helpers during Festivals

Literacy Programs

Tutoring/Mentoring
